## ABOUT ME

Final-year Bachelor of Computer Applications (BCA) student and passionate Web Developer with a strong foundation in HTML, CSS, and JavaScript. Experienced in building responsive user interfaces and currently expanding skills in React.js and WordPress. Eager to leverage creativity and technical skills to contribute to innovative web projects.

## PROJECTS

### Personal Portfolio Website | HTML, CSS, JavaScript, Locomotive.js ([Live-link](#))

- Designed and developed a fully responsive personal portfolio to showcase technical skills and projects.
- Implemented a dynamic **Dark/Light mode toggle** using JavaScript and CSS variables to enhance user accessibility and preference.
- Integrated **Locomotive.js** to achieve a premium, smooth-scrolling experience with parallax effects.
- Focused on clean UI/UX principles and cross-browser compatibility.

### ISRO Website – Reimagined | HTML, CSS, JavaScript, Swiper.js ([Live-link](#))

- Built a modern, responsive redesign of the ISRO website, focusing on visual hierarchy and information architecture.
- Developed interactive components, including mission highlight sections and image carousels using **Swiper.js**.
- Optimized the site for performance and accessibility, ensuring a seamless experience across mobile and desktop devices.

### Music Player Web App (In Progress) | HTML, CSS, JavaScript

- Developing a functional web-based music player with play, pause, and skip functionality.
- Designing smooth transitions and animations for a native-app feel.
- Working towards Progressive Web App (PWA) standards to enable cross-platform installation.

## TECHNICAL SKILLS

- **Frontend:** HTML5, CSS3, JavaScript (ES6), Responsive Design, DOM Manipulation.
- **Libraries & Tools:** Locomotive.js, Swiper.js, VS Code, Git & GitHub, Chrome DevTools.
- **Design & Prototyping:** Figma, Canva, Photopea.
- **Specialized Skills:** Email Template Development, Web Image Optimization.
- **Currently Learning:** React.js, WordPress Development, AI Tools.
